

## Announcement

---

March 2017

Thank you for choosing AmMetLife as your preferred life insurance provider.

At AmMetLife, customers are at the heart of everything we do; as such we want to keep you updated about the latest information on our products and services.

With this in mind, we would like to inform you that AmMetLife is proposing a change/update in the benchmarks for two of our Investment Link Funds after much review and consideration.

Please find below the proposed changes/updates in benchmarks for the affected funds, are as follows:

Funds	Current Benchmark	New Benchmark
AmMetLife Asia Pacific REITS Fund	Bloomberg Asia REIT Index	S&P Pan Asia REITs Index
AmMetLife Tactical Bond Fund	RAM Quantshop All MGS Index	Quantshop All MGS Index

The change/update of benchmarks will take effect from 1<sup>st</sup> April 2017.

### **Why were the benchmarks changed for these funds?**

For AmMetLife Asia Pacific REITS Fund, the change in benchmark from Bloomberg Asia REIT Index to S&P Pan Asia REITs Index is to make reference to a better comparable benchmark across the Asia Pacific REITs market. S&P Pan Asia REITs Index better represents the countries and universe of securities where the fund manager currently invests in or intends to invest in. The investment objective, strategy and investment approach of the fund remain unchanged and are not affected by the change in benchmark.

For AmMetLife Tactical Bond Fund, there is a slight change in the benchmark name, from RAM Quantshop All MGS Index to Quantshop All MGS Index. In relation to this change, there will not be any impact on the benchmark performance.

### **What is a benchmark?**

A benchmark is a standard against which the performance of a security, mutual fund or investment manager, in this case, the investment link fund, can be measured.

### **Where can I get information of the new benchmark?**

Information on the S&P Pan Asia REITs Index is available on Bloomberg L.P - [www.bloomberg.com](http://www.bloomberg.com), while the information on Quantshop All MGS Index is available in <http://www.fundslogic.com>.

**Would this change in benchmarks have any impact on the funds?**

This change of benchmarks will have no impact on the investment objective, strategy and investment approach or the performance of these funds.
